Write a short description about this task *Link to the folder containing your audio summary*

Technical Workouts

1. This week you are going to start your first project. You are advised to search and find a complete project tutorial in your domain. Complete the tutorial by the end of this week and prepare a presentation on it. Your presentation should explain what you are going to do in the upcoming weeks.
    a. NB: Candidates are advised not to start coding. This week is for project planning only. Please finish watching the tutorial carefully and plan your project and presentation accordingly.
    b. Refer to some existing websites related to your project and submit the research video.
    c. Compare different third party apps like razorpay, paypal etc.
2. Divide your project into modules.

3. Prepare a dated timeline in the module list.

4. Prepare API documentation for your project using postman.

5. Prototype your complete project using any prototyping tool such as "Figma" or XD.

6. Choose admin and user template, do the cleanup and design the database accordingly.

7. Learn basic Git concepts like add, commit, pull, push, stash.
